1. What was the best aspect of the course?

What was the best aspect of the course?

The combination of theory and model.

2. What improvements would you suggest in the course?

What improvements would you suggest in the course?

More classmates. It will be better if there are other students showing their results and having relative discussions.
The relevant lecture and lab should be held in the same week. I hope there will be a presentation each week.

3. What advice would you like to give to future course participants?

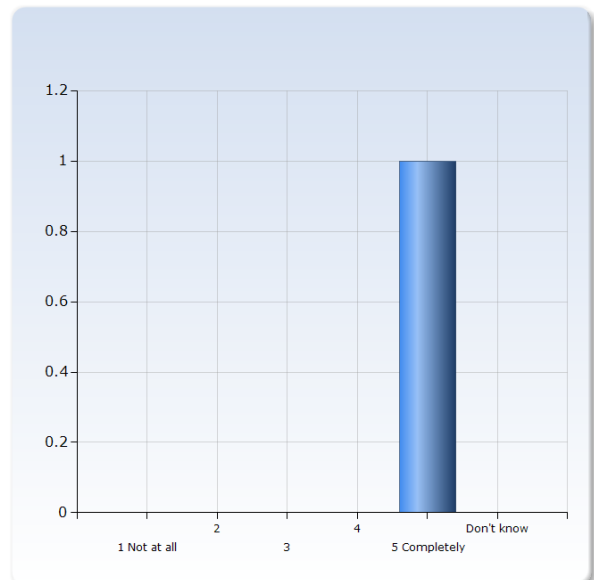

What advice would you like to give to future course participants?

Be careful with every code you write. The basic theory is the most important thing. And try to figure out how to show your results.

Comment on the overall impression

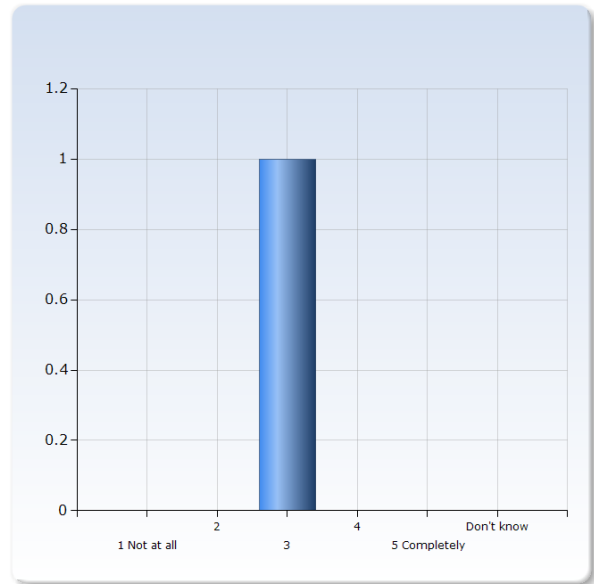

The course is really great. I can learn quite a lot of things during this one month. It includes both writing and oral training which is useful for my study. Both two teachers are patient and helpful.

Comment on your contribution

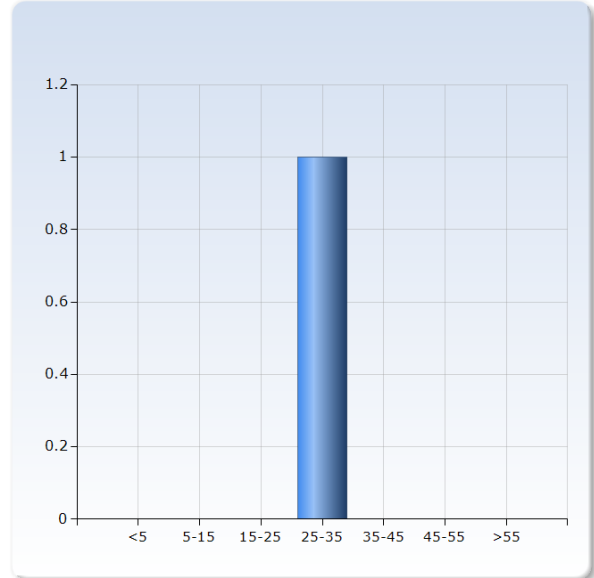

I have known some relative things about this course, so I did not put too much attention at first, thinking it will not be too hard. It is only one month, when I realize I should be more careful and spent more time on it, it already comes to the end. I am not satisfied with my effort, I thought I could do it better.
